- (e) the long-term strategies to integrate MVUs with broader livestock development, veterinary education, and rural employment initiatives?

**ANSWER**

**MINISTER FOR FISHERIES, ANIMAL HUSBANDRY & DAIRYING**

**(SHRI RAJIV RANJAN SINGH ALIAS LALAN SINGH)**

- (a) The details of the 4019 Mobile Veterinary Units (MVUs) made operational across States and Union Territories 2021-25022 are placed as Annexure I.
- (b) Department of Animal Husbandry & Dairying (DAHD), Government of India, under Livestock Health and Disease Control Program (LHDCP) Scheme, provides budgetary support to States and UTs for recurring expenditures on sharing basis. For enhanced outreach and coverage in remote regions, Mobile Veterinary Unit (MVU) operation is supported through the call centre where executive as well as Veterinary Doctors are stationed to help the farmers through toll free no 1962.
- (c) Presently, there is no proposal to increase the number of MVUs.
- (d) Apart from review meetings, state visits, and assessment of the State Action Plan, the evaluation is also done through National Level Monitors and Third Party Evaluation based on parameters such as funds utilized, farmers benefitted, animals treated.
- (e) MVUs are used for Veterinary care at farmer's doorstep in far flung areas. Operationalization of MVU in the State is relatively new and at present there is no such strategy to integrate other works to it.
