

**GOVERNMENT OF INDIA  
MINISTRY OF RAILWAYS**

**LOK SABHA  
UNSTARRED QUESTION NO. 6117  
TO BE ANSWERED ON 01.04.2026**

**SUPERFAST TRAIN STOPPAGES IN HADOTI REGION**

**6117. SHRI DUSHYANT SINGH:**

**Will the Minister of RAILWAYS be pleased to state:**

- (a) the number of Superfast trains presently having scheduled stoppages in the districts of Kota, Bundi, Jhalawar and Baran in the Hadoti region of Rajasthan, station-wise;**
- (b) whether any objective criteria/policy guidelines are followed while deciding stoppages of Superfast trains including factors such as passenger demand, ticket sales data, revenue generation, operational feasibility and regional connectivity;**
- (c) if so, the details of such criteria and the procedure adopted for periodic review of stoppages;**
- (d) whether any assessment has been undertaken with regard to passenger profile, demand patterns and revenue potential for stations in Jhalawar and Baran districts and if so, the details thereof; and**
- (e) whether any proposals are under consideration for introduction of additional stoppages in the said districts and if so, the details thereof?**

**ANSWER**

**MINISTER OF RAILWAYS, INFORMATION & BROADCASTING AND  
ELECTRONICS & INFORMATION TECHNOLOGY**

**(SHRI ASHWINI VAISHNAW)**

**(a) to (e) As the Railways network straddles across regional and state boundaries, trains are operated across such boundaries as per network requirement. At present, Kota station is being served by following 194 train services. The details are as under:-**

**Besides, provision of stoppages of train services, which is an on-going process, depends on the traffic justification, operational feasibility including availability of extra time on the section & availability of matching infrastructure such as Platform length etc.**

**On Indian Railways, occupancy pattern of trains varies over lean and peak periods. During peak rush periods, the occupancy of the trains especially on popular routes remains full whereas during lean period and on less popular routes, there is sub optimal utilization.**

**Traffic pattern of the trains running on Indian Railways is monitored on regular basis and to cater to additional demand, load of existing trains are augmented, special trains are run, new trains are introduced, frequency of existing trains is increased etc. subject to operational feasibility.**

**Further, proposals/ requests/ suggestions/ representations, both formal and informal inter alia for introduction of trains, extension of existing trains, increase in frequency of trains, stoppage of train services are received from Members of Parliament, elected representatives, organizations/rail users etc. at various levels including Railway Board, Zonal Railways, Divisional Offices etc. As receipt of such proposals/ requests/ suggestions is a continuous and dynamic process, centralized compendium of such requests is not maintained. However, these are examined and action as found feasible and justified is taken from time to time.**
