ANSWER

THE MINISTER OF STATE FOR INFORMATION AND BROADCASTING AND PARLIAMENTARY AFFAIRS

(DR. L. MURUGAN)

(a) to (e):

The Government supports Community Radio Stations (CRSs) through financial assistance for procurement of broadcast and studio equipment, training and capacity-building programmes, technical handholding, and content development. It implements a scheme called 'Supporting Community Radio Movement in India' to strengthen existing and establish new CRSs. To provide technical support and facilitate capacity building of CRSs, the Government organizes national and regional sammelans in various parts of the country.

In Madhya Pradesh, 17 CRSs have been supported through financial grants by the ministry. No proposal for financial assistance has been received in this Ministry from any CRS in Chhindwara District, Madhya Pradesh.

The Government regularly assesses the impact of financial and technological support under the scheme through periodic monitoring, utilisation reports, inspections and third-party evaluations. The scheme has enhanced the outreach of Community Radio Stations in rural, tribal and Left Wing Extremism (LWE)-affected areas through localised content, community participation and capacity building.

As per policy guidelines, at least 50% of the content of Community Radio Stations is mandatorily generated with community participation, with at least half of such content focusing on women empowerment.
