Major steps taken by the Government to improve the programme implementation under MGNREGA

Better planning and asset identification

4.

- An Intensive Participatory Planning Exercise (IPPE) has been launched in 95,000
 Gram Panchayats in 2,500 most backward Blocks. This exercise has helped in identifying better quality assets.
- For improving convergence with the line departments, and thereby to improve the quality of assets, the State Convergence Plans have been formulated.

Improving the quality of works

- The associated outcomes of each work are being recorded before taking up the work, and the same is being measured after completion of the work-thereby bringing in more focus on outcomes.
- Ministry would conduct training of Technical Resource Persons from the States/UTs on different technical aspects of type of works which can be taken up under the scheme.
- The States/UTs have been asked to deploy State Quality Monitors to inspect the quality of assets created under the Scheme.
- To facilitate states to engage technical assistants/barefoot engineers for better technical planning and supervision of works under MGNREGA, guidelines have been issued to allow their establishment cost as a part of material cost of works instead of administrative cost.
- Mobile Monitoring Systems has been introduced in 35000 GPs to empower GPs and implementation agencies with live data from the worksites and allow an online and real-time updation of database for complete transparency.

Better transparency, accountability and grievance redressal

- States/UTs have been asked to strengthen Social audits of MGNREGS works in accordance with the provisions of the Audit of Schemes Rules 2011 issued in consultation with the Comptroller and Auditor General of India. In order to support the States to conduct the Social Audits as laid down under the Rules, it has been decided to provide technical assistance of Rs.147 crore under a special Project that will be in operation till 2017. Under this, the cost of engaging social audit resource persons at the State and District Levels will be reimbursed to the States/UTs.
- All States have been requested to appoint Ombudsman at the district level for grievance redressal.
- The Ministry has established a comprehensive system of monitoring and review mechanism for MGNREGA, which, inter alia, include visits of Area Officers of the Ministry and National Level Monitors and Vigilance & Monitoring Committee meetings at the State/ District levels.

• With a view to avoid bogus attendance and to check instances of tempering and misuse of muster rolls, the e-Muster system has been introduced.

Fund management and avoiding delays in payment

- For smooth fund flow, the electronic Fund Management System (e-FMS) has been introduced which would also reduce delays in payment of wages.
- A delay compensation system has been introduced to fix accountability for delays and penalize such persons.
