

**GOVERNMENT OF INDIA  
MINISTRY OF HEALTH AND FAMILY WELFARE  
DEPARTMENT OF HEALTH AND FAMILY WELFARE**

**LOK SABHA  
UNSTARRED QUESTION NO.1008  
TO BE ANSWERED ON 4<sup>TH</sup> DECEMBER, 2015**

**WATER-BORNE DISEASES**

**1008. SHRI E.T. MOHAMMED BASHEER:  
SHRI ABHISHEK BANERJEE:**

Will the Minister of **HEALTH AND FAMILY WELFARE** be pleased to state:

- (a) the number of cases of water-borne diseases and attributable casualties reported in the country during each of the last three years and the current year, disease and State/UT-wise;
- (b) whether the Government has conducted any survey/study in this regard, if so, the details and the outcome thereof;
- (c) the steps taken/proposed to be taken by the Government for prevention, control and treatment of water-borne diseases in the country; and
- (d) the funds allocated and utilised for the purpose during the above period, State/ UT-wise?

**ANSWER  
THE MINISTER OF HEALTH AND FAMILY WELFARE  
(SHRI JAGAT PRAKASH NADDA)**

(a) to (d): Consumption of contaminated drinking water can cause diseases such as Cholera, Acute Diarrhoeal Diseases, Enteric Fever (Typhoid), Viral Hepatitis etc. As per the data reported by Central Bureau of Health Intelligence (CBHI), State/UT- wise number of cases and deaths due to Cholera, Acute Diarrhoeal Diseases, Enteric Fever (Typhoid), and Viral Hepatitis during the years 2012-2015 are given at Annexure I.

Provision of safe drinking water is the main strategy to control diseases caused by drinking of contaminated water. Rural water supply is a State subject. Government of India supplements the efforts of the States by providing technical and financial assistance under the centrally sponsored National Rural Drinking Water Programme (NRDWP) for providing safe and adequate drinking water supply facilities in rural areas of the country. 5% of NRDWP Funds are earmarked for support funds which are allotted to the States on 100% central share for activities such as IEC (Information, Education and Communication) for awareness generation, HRD (Human Resource Development) for capacity building and for MIS (Management Information System). Further, under NRDWP, 3% of funds allocated to the States are earmarked for Water Quality Monitoring and Surveillance (WQMS) activities on a 100% Central share basis which, inter alia, includes testing of drinking water sources at the Panchayat level by using simple field test kits, upgrading of existing water quality testing laboratories and setting up of new State/district/sub-district water quality testing laboratories wherever such facility is not available or needed. Water Quality Monitoring & Surveillance Programme aims at empowering rural communities to manage and keep surveillance on their own drinking water sources.

Further, as informed by Ministry of Water Resources, River Development & Ganga Rejuvenation, an amount of Rs. 10 crore has been earmarked for IEC activities under the Information, Education & Communication component of HRD & Capacity Building Scheme for the year 2015-16.

Government of India also started the National Programme for Prevention and Control of Fluorosis (NPPCF) in the 11th Five Year Plan. So far, 111 districts have been covered under the programme. The important components of the programme are surveillance of fluorosis in the community, Information, Education and Communication (IEC) activities, capacity building in the form of training and manpower support, establishment of diagnostic facilities, management of fluorosis cases including treatment, surgery, rehabilitation, and health education. Details of the fund released under NPPCF are given in Annexure II.

Further, National Centre for Disease Control (NCDC), Delhi provides technical assistance to State/UT Governments on prevention and control of water-borne diseases in carrying out investigation of outbreaks of such diseases under Integrated Disease Surveillance Programme (IDSP). At the National level, NCDC also coordinates laboratory support for outbreak investigations, besides conducting regular training courses for development of trained manpower. Details of funds released and expenditure for the last three years and the current year State/UT wise are at Annexure III.

Health System Strengthening support being given to the State Governments under National Health Mission (NHM) also enhances capacity of the Health Institutions, up to the district level, to treat and manage water borne diseases.

.....

## Annexure-I

### State-wise Cases & Deaths Due to Cholera in India 2012 – 2015
