ANSWER

वाणिज्य एवं उद्योग राज्य मंत्री (श्रीमती निर्मला सीतारमण)(स्वतंत्र प्रभार)
THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE AND INDUSTRY
(INDEPENDENT CHARGE)
(SMT. NIRMALA SITHARAMAN)

(a) to (d) To meet the domestic demand and to curb the rising prices, MMTC on behalf of Department of Agriculture & Cooperation imported 1989 MT of onion of Chinese and Egyptian origin in two batches. A quantity of 1000 MT was imported at a price of USD 685 PMT and the balance quantity of 989 MT was imported at a price of USD 545 PMT. The imported onions arrived at JNPT port (Mumbai) between 1.10.2015 and 13.10.2015. Meanwhile, due to reasons such as arrival of Kharif onion in October, ongoing festivities and import of onions by private traders, no demand was forthcoming from the States or any Government agency for imported onions. This despite the fact that imported onion was offered by the Government at Rs.50/kg. at State capitals. As onion is highly perishable and susceptible to fast

deterioration, it was decided, to allow MMTC to dispose of the onion through local auction. As per provisional assessment of accounts, the loss in transaction in imports of onions has been approximately Rs.8.03 crores, which would be borne out of Price Stabilisation Fund (PSF).

(e) Imports of Onions were undertaken as a price stabilization measure. For perishable commodities like onions which have short shelf life, losses could happen in case there is no firm demand from the State Governments or Central Government Agencies and further such commodities are subject to market prices and have to be disposed at best price received in tender.
