**MINISTER OF STATE (INDEPENDENT CHARGE) FOR MINISTRY OF PLANNING AND
MINISTER OF STATE FOR DEFENCE**

(RAO INDERJIT SINGH)

(a) to(c): As per the Human Development Report (HDR) 2015 of United Nations Development Programme (UNDP), Human Development Index (HDI) value for India was 0.609 in 2014 which improved from 0.604 in 2013. As per the HDR 2015 India was placed at 130th position out of 188 countries in 2014 whereas India's HDI rank was 131 in 2013. It has been clarified in the report that International Data Agencies continuously improve their data series. Therefore, year to year changes in the HDI values and rankings across different editions of the HDR are not strictly comparable.

India's HDI trends based on consistent time series data are given in the Table below. Over the years India has registered a consistent improvement in HDI value which increased from 0.496 in 2000 to 0.586 in 2010 and further to 0.609 in 2014. India has registered average annual HDI growth of 0.97 percent in 2010-14.
