

GOVERNMENT OF INDIA  
MINISTRY OF ENVIRONMENT, FOREST AND CLIMATE CHANGE

**LOK SABHA**  
**UNSTARRED QUESTION NO. 1531**  
TO BE ANSWERED ON 03.05.2016

**Conference on Tiger Conservation**

1531. SHRI KUNWAR HARIBANSH SINGH:

SHRI P.P. CHAUDHARY:

SHRI GAJANAN KIRTIKAR:

DR. SUNIL BALIRAM GAIKWAD:

SHRI S.R. VIJAYAKUMAR:

Will the Minister of ENVIRONMENT, FORESTS AND CLIMATE CHANGE be pleased to state:

- (a) whether the third Asia Ministerial Conference on tiger conservation was held in Delhi recently, if so, the details of issues discussed and consensus arrived at in the said Conference;
- (b) whether the latest figures of global tiger population was released on the eve of the said Conference and if so, the details thereof, country-wise;
- (c) whether the Indian tiger population has increased consistently and if so, the details thereof along with the factors contributing to the said increase;
- (d) whether India and Cambodia have any proposal to relocate Indian Royal Bengal tigers to Cambodia; and
- (e) if so, the details thereof along with the study undertaken in this regard and the time by which a final decision is likely to be taken by the Government?

**ANSWER**

MINISTER OF STATE (INDEPENDENT CHARGE) FOR ENVIRONMENT, FOREST AND CLIMATE CHANGE  
(SHRI PRAKASH JAVADEKAR)

- (a) The 3<sup>rd</sup> Asia Ministerial Conference on Tiger Conservation was held from April 12 to 14, 2016 at Vigyan Bhawan, New Delhi. Report on status / progress of Global Tiger Recovery Programme (GTRP)/ National Tiger Recovery Programme (NTRP) implementation in 13 tiger range countries was discussed besides several issues pertaining to landscape conservation, habitat management, antipoaching, protection, illegal trade & trafficking, capacity building and leadership, sustainable development, smart green infrastructure, role of business and industries, resource mobilization in all the tiger range countries. The Global Snow Leopard and Ecosystem Protection Programme was also discussed. The New Delhi Resolution on Tiger Conservation, placed at **Annexure-I** was adopted.
- (b) No, Sir.
- (c) Yes Sir, tiger estimates of the last three estimation cycles done in India are at **Annexure-II**. Several milestone initiatives of the Government of India / National Tiger Conservation Authority responsible for this increase are at **Annexure-III**.
- (d) No, Sir.
- (e) Question does not arise.

\*\*\*

**ANNEXURE REFERRED TO IN REPLY TO PART (a) OF THE LOK SABHA UNSTARRED QUESTION NO. 1531 ON CONFERENCE ON TIGER CONSERVATION DUE FOR REPLY ON 03.05.2016**

**NEW DELHI RESOLUTION ON TIGER CONSERVATION**

3<sup>rd</sup> Asia Ministerial Conference on Tiger Conservation  
April 14, 2016, New Delhi, India

Wild tigers remain endangered across Tiger Range Countries (TRCs). While some TRCs have made progress in increasing their populations of tigers in the last few years, the global scenario is still a cause for major concern. Tigers have become critically endangered or locally extinct in some TRCs. The extent and quality of habitat has also been diminished in many. This is a serious impediment to achieving the goal of doubling the number of wild tigers range wide (Tx2) by 2022, the timeline envisaged in the St. Petersburg Declaration on Tiger Conservation of 2010. A renewed impetus is required to achieve the goal.

Therefore,

Drawing inspiration from and reiterating and reconfirming the principles and actions of the Hua Hin Declaration on Tiger Conservation (2010), the St. Petersburg Declaration on Tiger Conservation (2010), the Thimphu Affirmative Nine-Point Action Agenda (2012) and the Dhaka Recommendations (2014) - such as working collaboratively to eradicate poaching, smuggling and illegal trade, strengthening frontline staff capacity, building partnerships, accelerating the flow of national and external funds - and building upon the first five years of implementation of the Global Tiger Recovery Program (GTRP) and National Tiger Recovery Programs (NTRPs), we renew our collective pledge to ensure the conservation of tigers in the wild and their habitats.

Inspired by the statement of Prime Minister of India, Narendra Modi, during this conference that “conservation of tigers is not a choice, it is an imperative” and to achieve these concrete results by 2022,

We, the representatives of the Governments of the Tiger Range Countries, RESOLVE to:

1. **Accelerate implementation** of the GTRP/NTRPs and agreed actions from the above-mentioned declarations, review and update priority and differentiated action plans, and track progress through mutual and systematic reporting and evaluation.
2. **Align development and tiger conservation** in a mutually complementary manner by re-orienting development strategies to mainstream the concerns of tiger conservation, such as by integrating tiger and wildlife safeguards in infrastructure at the landscape level, developing partnerships with business groups, and strong engagement with local stakeholders.
3. **Leverage funding and technical support** from international organisations, bilateral and multilateral financial institutions, foundations, civil society organisations, private sector, and climate funds, in addition to TRC governments.
4. Recognise and enhance the importance of tiger habitats by promoting them as **providing ecosystem services, as engines of economic growth and helping to address climate change.**
5. **Emphasize recovery of tiger populations in areas with low tiger densities** and restoration in areas from which they have been extirpated by using successful programs of tiger reintroduction and rehabilitation of their habitats and prey.
6. **Strengthen co-operation at the highest levels of government** to combat wildlife crime, address the demand for tiger products, and increase formal and informal transboundary coordination.

7. **Enhance knowledge sharing and capacity development for all stakeholders and increase the use of technology**, including smart tools, monitoring protocols, and information systems, to improve management effectiveness.

Acknowledging and appreciating the contribution of different partners during the implementation of the GTRP and NTRPs, we urge the Global Tiger Forum and the Global Tiger Initiative Council to continue their role in coordination, technical assistance, and incremental resource mobilisation toward achievement of this Resolution.

**ANNEXURE REFERRED TO IN REPLY TO PART (c) OF THE LOK SABHA UNSTARRED QUESTION NO. 1531 ON CONFERENCE ON TIGER CONSERVATION DUE FOR REPLY ON 03.05.2016**

**Several milestone initiatives taken by the Government of India through the National Tiger Conservation Authority for protection and conservation of tigers and other wild animals**

**Legal steps**

1. Amendment of the Wild Life (Protection) Act, 1972 in 2006 to provide enabling provisions for constituting the National Tiger Conservation Authority under section 38 IV B and the Tiger and Other Endangered Species Crime Control Bureau under section 38 IV C.
2. Enhancement of punishment for offence in relation to the core area of a tiger reserve or where the offence relate to hunting in the tiger reserves or altering the boundaries of tiger reserves, etc.
3. Comprehensive guidelines under section 38O 1 (c) of the Wildlife (Protection) Act, 1972 issued for Project Tiger and Tourism in Tiger Reserves on 15<sup>th</sup> October, 2012.

**Administrative steps**

4. Constitution of the National Tiger Conservation Authority (NTCA) with effect from the 4<sup>th</sup> September, 2006, for strengthening tiger conservation by, inter alia, ensuring normative standards in tiger reserve management, preparation of reserve specific tiger conservation plan, laying down annual audit report before Parliament, constituting State level Steering Committees under the Chairmanship of Chief Ministers and establishment of Tiger Conservation Foundation.
5. Constitution of a multidisciplinary Tiger and Other Endangered Species Crime Control Bureau (Wildlife Crime Control Bureau) with effect from the 6<sup>th</sup> June, 2007 to effectively control illegal trade in wildlife.
6. Strengthening of antipoaching activities, including special strategy for monsoon patrolling, by providing funding support to tiger reserve States, as proposed by them, for deployment of antipoaching squads involving ex-army personnel or home guards, apart from workforce comprising of local people, in addition to strengthening of communication and wireless facilities.
7. The in-principle approval has been accorded by the National Tiger Conservation Authority for creation of new tiger reserves, and the sites are: Ratapani (Madhya Pradesh), Sunabeda (Odisha) and Guru Ghasidas (Chhattisgarh). The State Governments have been advised to send proposals for declaring the following areas as tiger reserves: (i) Suhelwa (Uttar Pradesh), (ii) Mhadei Sanctuary (Goa), (iii) Srivilliputhur Grizzled Giant Squirrel / Megamalai Wildlife Sanctuaries / Varushanadu Valley (Tamil Nadu), (iv) Dibang Wildlife Sanctuary (Arunachal Pradesh) and (v) Cauveri-MM Hills (Karnataka).
8. Rajaji National Park (Uttarakhand) & Orang National Park (Assam) have been declared / notified as 48<sup>th</sup> & 49<sup>th</sup> Tiger Reserves. Besides the recently notified tiger reserves include: Kawal (Telangana), Sathyamangalam (Tamil Nadu), Mukandra Hills (Rajasthan), Nawegaon-Nagzira (Maharashtra), Amrabad (erstwhile Nagarjunasagar Srisailem Tiger Reserve portion) (Telangana), Pilibhit (Uttar Pradesh) and Bor (Maharashtra).
9. The revised Project Tiger guidelines have been issued to State Governments for strengthening tiger conservation, which apart from ongoing activities, inter alia, include financial support to States for enhanced village relocation or rehabilitation package for people living in core or critical tiger habitats (from Rs. 1 lakh per family to Rs. 10 lakhs per family), rehabilitation or resettlement of communities involved in traditional hunting, mainstreaming livelihood and wildlife concerns in

forests outside tiger reserves and fostering corridor conservation through restorative strategy to arrest habitat fragmentation.

10. A scientific methodology for estimating tiger (including co-predators, prey animals and assessment of habitat status) has been evolved and mainstreamed. The findings of this estimation and assessment are bench marks for future tiger conservation strategy.

11. The 18 tiger States have notified the core/critical tiger habitat (39788.12 sq. km.), and the buffer/peripheral area (31250.45 sq.km.) of all the 49 tiger reserves in the country, under section 38V of the Wild Life (Protection) Act, 1972, as amended in 2006.

12. Regional Offices of the National Tiger Conservation Authority are operational at Nagpur, Bengaluru and Guwahati headed by an Inspector General of Forests.

### **Financial steps**

13. Financial and technical help is provided to the State Governments under various Centrally Sponsored Schemes, such as “Project Tiger” and “Integrated Development of Wildlife Habitats” for enhancing the capacity and infrastructure of the State Governments for providing effective protection to wild animals.

### **International Cooperation**

14. India has a bilateral understanding with Nepal on controlling trans-boundary illegal trade in wildlife and conservation, apart from a protocol on tiger conservation with China.

15. A protocol has been signed in September, 2011 with Bangladesh for conservation of the Royal Bengal Tiger of the Sunderban.

16. A sub-group on tiger and leopard conservation has been constituted for cooperation with the Russian Federation.

17. India is the founder member of the Global Tiger Forum of Tiger Range Countries for addressing international issues related to tiger conservation.

18. During the 14<sup>th</sup> meeting of the Conference of Parties to CITES, which was held from 3<sup>rd</sup> to 15<sup>th</sup> June, 2007 at The Hague, India introduced a resolution along with China, Nepal and the Russian Federation, with direction to Parties with operations breeding tigers on a commercial scale, for restricting such captive populations to a level supportive only to conserving wild tigers. The resolution was adopted as a decision with minor amendments. Further, India made an intervention appealing to China to phase out tiger farming and eliminate stockpiles of Asian big cats body parts and derivatives. The importance of continuing the ban on trade of body parts of tigers was emphasized.

19. Based on India's strong intervention during the 62<sup>nd</sup> meeting of the Standing Committee of the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) at Geneva from 23-27 July, 2012, the Convention on International Trade in Endangered Species of Wild Fauna and Flora Secretariat has issued a notification No. 2012/054 dated the 3<sup>rd</sup> September, 2012 to Parties to fully implement Decision 14.69 and report to the Secretariat by 25 September, 2012 (Progress made on restricting captive breeding operations of tigers etc.).

### **OTHER MISCELLANEOUS STEPS**

20. **Creation of Special Tiger Protection Force (STPF):** The Special Tiger Protection Force (STPF) has been made operational in the States of Karnataka (Bandipur), Maharashtra (Pench and Tadoba-Andhari) and Odisha (Similipal), out of 13 initially selected tiger reserves, with 60% central assistance under the ongoing Centrally Sponsored Scheme of Project Tiger. In-principle approval has

been accorded for creation of the said force in Nawegoan-Nagzira, Melghat (Maharashtra), Kawal and Amrabad (erstwhile Nagarjunasagar Srisailem Tiger Reserve portion) Tiger Reserves (Telangana).

21. In collaboration with TRAFFIC-INDIA, an **online tiger crime data base** has been launched, and Generic Guidelines for preparation of reserve specific Security Plan has been evolved.

22. Implementing a tripartite Memorandum of Understanding (MOU) with tiger States, linked to fund flows for effective implementation of tiger conservation initiatives.

23. Steps taken for modernizing the infrastructure and field protection, besides launching 'Monitoring system for Tigers' Intensive Protection and Ecological Status (M-STrIPES)' for effective field patrolling and monitoring.

24. Steps taken for no-cost involvement of Non-Governmental Experts in the all India tiger estimation.

25. Initiatives taken for improving the field delivery through capacity building of field officials, apart from providing incentives.

26. As a part of active management to rebuild Sariska and Panna Tiger Reserves where tigers have become locally extinct, reintroduction of tigers and tigresses have been done. The successful reintroduction of wild tigers in Sariska is a unique exercise and is the first of its kind in the world. The reintroduced tigresses are breeding. The tiger reintroduction initiative at Panna (MP) has been very successful.

27. Special advisories issued for in-situ build up of prey base and tiger population through active management in tiger reserves having low population status of tiger and its prey.

28. **All India Tiger, Co-predators and Prey Estimation, 2014:-** The third round of country level tiger status assessment completed in 2014, with the findings indicating an increase with a tiger population estimate of 2226 (lower and upper limits being 1945 and 2491 respectively), as compared to the last country level estimation of 2010, with an estimate of 1706 (lower and upper limits being 1520-1909 tigers), and 2006 estimation, with an estimate of 1411 (lower and upper limits being 1165 and 1657). At present, India has around 70% of tiger population and its source areas amongst the 13 tiger range countries in the world, owing to its long history of conserving the species through Project Tiger (2.12% of country's geographical area spread out in 49 tiger reserves in 18 States).

29. **Management Effectiveness Evaluation (MEE):** A report on Management Effectiveness Evaluation (MEE) of Tiger Reserves was released on January, 2015, containing the third round of independent assessment based on refined criteria done in 2013-14 for 43 tiger reserves. Out of 43 tiger reserves, 17 were rated as 'very good', 16 as 'good' and 10 as 'fair'.

30. Providing special assistance for mitigation of human-tiger conflicts in problematic areas.

#### **Standard Operating Procedures (SOPs)**

31. A 'Standard Operating Procedure' for dealing with tiger deaths has been issued, based on advisories of Project Tiger / National Tiger Conservation Authority, with inputs from Wildlife Crime Control Bureau, State officials and experts, fine tuned to meet the present challenges.

32. A 'Standard Operating Procedure' for dealing with straying tigers in human dominated landscape has been issued.

33. A 'Standard Operating Procedure' for disposing tiger/leopard carcass/body parts has been issued.

34. A Standard Operating Procedure has been issued to deal with orphaned / abandoned tiger cubs and old / injured tigers in the wild.
35. A 'Standard Operating Procedure' has been issued to deal with tiger depredation on livestock.
36. A 'Standard Operating Procedure' has been issued for active management towards rehabilitation of tigers from source areas at landscape level.
37. Launching of Phase-IV tiger reserve level, continuous monitoring of tigers using camera traps and building up data on photo captures of individual tigers.
38. Launching the creation of a national repository of camera trap photo IDs of individual tigers.
39. In-principle approval for use of CAMPA funds towards village relocation from core areas.
40. Under active management, permission accorded for translocation of wilded / straying tigers / tigresses from high to low density reserves within States.
41. Field level workshops for capacity building of field officers to deal with straying tigers.

#### **Recent Steps**

42. On completion of e-surveillance project in Corbett Tiger Reserve (Uttarakhand), central assistance (100%) has been provided for installing 24X7 e-surveillance at Kaziranga Tiger Reserve (Assam) and fringe of Ratapani Wildlife Sanctuary (Madhya Pradesh).
43. **Economic Valuation of six tiger reserves** done in collaboration with the Indian Institute of Forest Management. Similar exercise is being done for 10 more tiger reserves.
44. Trial of Unmanned Aerial Vehicle for monitoring done in the Panna Tiger Reserve (Madhya Pradesh), in collaboration with the Wildlife Institute of India and now has plan to extend to other tiger reserves too.
45. Assessment of Status, Density and Change in Forest Cover in and around tiger reserves of the Shivalik Gangetic Plain Landscape done in collaboration with the Forest Survey of India.
46. A Rhino Task Force has suggested measures to strengthen rhino protection in the Kaziranga Tiger Reserve.
47. In-principle approval has been accorded for creation of Rhino Protection Force at Kaziranga Tiger Reserve.
48. Supporting a health insurance scheme for forest guards in Kaziranga Tiger Reserve.
49. Fostering a voluntary group "Friends for Rhino" for eliciting public support for rhino conservation with active local participation around Kaziranga Tiger Reserve.
50. Initiative taken for collaboration with National Remote Sensing Agency (NRSA) towards evolving an alert system in tiger reserves prone to natural disasters.
51. A joint report with Nepal and Bangladesh has been brought out on the assessment of tiger status in the terai arc landscape.
52. Initiative taken for collaboration of National Tiger Conservation Authority and Wildlife Crime Control Bureau towards an online tiger / wildlife crime tracking / reporting system in tiger reserves.
