Some key reasons for negative export growth in the recent period are as follows:

- (i) Fall in global demand and fall in commodity prices impacting terms of trade for commodity exporters.
- (ii) Fall in the prices of petroleum crude resulting in consequent decline in prices as well as export realizations for petroleum products, which are major items of export for India.
- (iii) EU Countries that account for nearly 16% of India's export, are facing stagnation. China is also experiencing a slow down. The recovery in US has been moderate and uncertain in terms of sustainability.
- (iv) There is a general slowdown in the world GDP growth and hence in growth of World Trade. Some increase in trade barriers has also been reported.

(d) and (e) Steps have been taken to address the trade deficit through promotion of exports, as described below. Efforts are also made to address country specific impediments through bilateral trade engagements. Details of some key steps taken by Government to boost exports and reverse the current trend in foreign trade are as follows:-

- i) The Merchandise Exports from India Scheme (MEIS) was introduced in the Foreign Trade Policy (FTP) 2015-20 on April 1, 2015. MEIS aims to incentivize export of merchandise which are produced/manufactured in India. At the time of introduction of MEIS on April 1, 2015, the scheme covered 4914 tariff lines at 8 digit level. Countries of the globe were grouped into 3 market categories (Country Group A, Country Group B & Country Group C) for grant of incentives under MEIS. Slight changes in lines covered etc. were made on 14.07.2015 and 15.7.2015. Thereafter on 29.10.2015, 110 new Tariff Lines at 8 digit level were added under the scheme. The rates/country coverage for 2228 lines at 8 digit level were enhanced. As on date, 5012 Tariff Lines at 8 digit level are eligible for rewards under MEIS. The annual resource allocation under MEIS was enhanced from Rs. 18000 crore to Rs. 21000 crore in October 2015.
- ii) The Government has introduced the Interest Equalisation Scheme on Pre & Post Shipment Rupee Export Credit with effect from 1.4.2015. The scheme is available to all exports under 416 tariff lines [at ITC (HS) code of 4 digit] and exports made by Micro, Small & Medium Enterprises (MSMEs) across all ITC (HS) codes. The rate of interest equalisation is 3% per annum.

- iii) In addition the Government continues to provide the facility of access to duty free raw materials and capital goods for exports through schemes like Advance Authorisation, Duty Free Import Authorisation (DFIA), Export Promotion Capital Goods (EPCG) and Drawback/Refund of Duties.
