(a) & (b): The modification of two SU-30 MKI to carry BrahMos air version missile has been completed successfully. Fitment trials of BrahMos air version Missile on SU-30 MKI have been carried out and the first captive flight was flown on 25th June 2016. Also, additional sorties have been, thereafter, flown to prove the mechanical integration for the envisaged flight envelope. This is part of ongoing design & development stage.

(c) & (d): The tests and trials so far carried out are successful.
