**ANSWER**

**MINISTER OF STATE IN THE MINISTRY OF HUMAN RESOURCE DEVELOPMENT  
(DR. MAHENDRA NATH PANDEY)**

(a) to (c) As per the Human Capital Report 2016, brought out by the World Economic Forum, overall rankings of Sri Lanka, China, Bangladesh and India based on Human Capital Index, 2016 are as under:-

Name of the country	Overall Score	Overall Rank
Sri Lanka	71.69	50
China	67.81	71
Bangladesh	57.84	104
India	57.73	105

(d): As per the report, Human Capital Index quantifies development and deployment of human capital in selected countries and tracks the progress overtime. The composite index has been prepared by taking factors like levels of education, skills and employment opportunities available to the people in distinct age groups.

Although a substantial portion of the metrics used for constructing the Human Capital Index depended on subjective opinions from the Executive Opinion Survey and opinion gathered from the country's business community, Government has taken various measures for improving the literacy levels and ensuring quality of education and development of skills of people for better employment. This may result in better ranking in future.
