

GOVERNMENT OF INDIA  
MINISTRY OF DEFENCE  
DEFENCE RESEARCH & DEVELOPMENT ORGANISATION  
**LOK SABHA**

**UNSTARRED QUESTION NO.969**  
TO BE ANSWERED ON THE 22<sup>ND</sup> JULY, 2016

**DRDO PROJECTS**

969. SHRI RAMSINH RATHWA:

Will the Minister of DEFENCE j{k k ea=h  
be pleased to state:

- (a) whether major projects of the Defence Research and Development Organisation (DRDO) are running behind schedule;
- (b) if so, the details thereof and the reasons for delay in completion of these projects, project-wise;
- (c) the details of funds required, allocated, released and utilized for the purpose during each of the last five years and the current year, project-wise; and
- (d) the corrective measures taken / being taken by the Government in this regard?

**A N S W E R**

MINISTER OF DEFENCE

j{k k ea=h

(SHRI MANOHAR PARRIKAR)

¼Jh euksgj ijhZdj½

**(a) to (c): Major projects of Defence Research and Development Organisation (DRDO) which are running behind schedule, are given at Annexure 'A'.**

**(d) The following corrective measures have been taken/being taken to address the issues of delay in completion of ongoing projects:-**

- Consortium approach is being used for design, development and fabrication of critical components.
- Three-tier project monitoring approach has been instituted in the major projects.

.....2/-

- **Project Monitoring Review Committee (PMRC) and Project Appraisal and Review Committee (PARC) meetings are held regularly to monitor the progress of ongoing projects.**
- **Concurrent engineering approach has been adopted in technology intensive projects to minimize time-lag between development and productionisation of the systems.**
- **Information Technology and modern management techniques are being applied.**
- **Encouraging joint funding by users to ensure their commitment towards earliest completion.**
- **Organisational re-structuring:**
  - **Decentralization of authority and responsibility with labs/cluster Director Generals (DGs)**
  - **High empowerment and accountability**
- **Involvement of Services & Production Partners during development process and reviews - To know their views in advance including finalisation of GSQRs.**

\*\*\*\*\*

**ANNEXURE 'A' REFERRED IN THE REPLY GIVEN IN PARTS (a) TO (c) OF LOK SABHA UNSTARRED QUESTION NO. 969 FOR ANSWER ON 22.7.2016**

**(a) to (c):** Project-wise details, regarding original and revised date of completion, sanctioned cost, expenditure made during last five years and current year (up to 30 June) along with reasons for delay in completion of major ongoing projects of Defence Research and Development Organisation (DRDO) are given in following table:

| Sr No | Project   | Probable Date of Completion (PDC)  |           | Sanctioned Cost (Rs in Cr) | Expenditure made during |         |         |         |         |         |
|-------|---|--|-----------|----------------------------|-------------------------|---------|---------|---------|---------|---------|
|       |   | Original   | Revised   |                            | 2011-12                 | 2012-13 | 2013-14 | 2014-15 | 2015-16 | 2016-17 |
| 1.    | <b>Light Combat Aircraft (LCA), Phase-II</b><br><i>*(Sanction for expenditure beyond PDC has been obtained from Hon'ble RM)</i>           | Dec 2008   | Mar 2015* | 5777.56                    | 449.90                  | 429.38  | 268.99  | 298.17  | 280.91  | 185.02  |
|       |   | <b>Reasons for Delay:</b> <ul style="list-style-type: none"> <li>• Re-designing of Composite Wings. Change in build standard &amp; aircraft fabrication.</li> <li>• Technology denial by technological advanced countries</li> <li>• Inadequate production facility at HAL. At present, HAL is achieving production of 4 aircraft/year instead of 8 aircraft/year</li> <li>• Un-anticipated complexities faced in structural design.</li> <li>• Lack of infrastructure and skilled manpower in country.</li> </ul> <i>(Initial Operational Clearance (IOC-I) was achieved in Jan 2011. Initial Operational Clearance-II was obtained in Dec 2013, wherein "Release to Service Certificate" was handed over to the Chief of Air Staff by Raksha Mantri in Bengaluru. LCA has recently been inducted into Indian Air Force).</i> |           |                            |                         |         |         |         |         |         |
| 2.    | <b>Naval Light Combat Aircraft (LCA, Navy) Phase-I</b><br><i>*(Sanction for expenditure beyond PDC has been obtained from Hon'ble RM)</i> | Mar 2010   | Dec 2014* | 1714.98                    | 177.56                  | 283.07  | 144.50  | 74.97   | 124.12  | 18.87   |
|       |   | <b>Reasons for Delay:</b> <ul style="list-style-type: none"> <li>• Country attempting design and development of a carrier borne naval aircraft for the first time.</li> <li>• Technology challenges have been significantly higher than originally anticipated.</li> <li>• New material development for landing gear &amp; arrester hook system took longer time than anticipated.</li> <li>• Un-anticipated complexities faced in structural design.</li> <li>• Delay in development of LCA Air Force led to delay in LCA Navy due to shared resources.</li> </ul> <i>(Shore based test facility has been commissioned).</i>  |           |                            |                         |         |         |         |         |         |
