Besides, provision of stoppage of train services, depends on the traffic justification, operational feasibility including availability of extra time on the section & availability of matching infrastructure such as Platform length etc.

Further, Proposals/ requests/ suggestions/ representations, both formal and informal *inter alia* for introduction/restoration of trains are received from Members of Parliament, elected representatives, organizations/rail users etc. at various levels including Railway Board, Zonal Railways, Divisional Office etc. As receipt of such proposals/ requests/ suggestions is a continuous and dynamic process, centralized compendium of such requests is not maintained. However, these are examined and action as found feasible and justified is taken from time to time, which is an on-going process.

Besides, extension of train services on any route/section depends on various factors which include-

- **Capacity of that section**
- **Availability of path**
- **Availability of required rolling stock**
- **Availability of matching infrastructure for rolling stock**
- **Maintenance requirement of railway tracks and other assets**
