

GOVERNMENT OF INDIA
MINISTRY OF COMMERCE AND INDUSTRY
DEPARTMENT OF COMMERCE
LOK SABHA
UNSTARRED QUESTION NO. 3782
ANSWERED ON 11/08/2026

IMPACT OF FRUITS AND VEGETABLES IMPORT

3782. ADV PRIYA SAROJ:
SHRI MOHIBBULLAH:
SHRI PUSHPENDRA SAROJ:

Will the Minister of **COMMERCE AND INDUSTRY** (वाणिज्य और उद्योग मंत्री) be pleased to state:

- (a) the details of imports of fruits and vegetables during the last ten years indicating the quantity and value thereof, year, country and commodity-wise;
- (b) the details of imports of tree nuts during the last ten years, indicating the quantity and value thereof, year, country and commodity-wise;
- (c) the details of the safeguards and protection measures provided to the agriculture and horticulture sectors under the various Free Trade Agreements (FTAs), Comprehensive Economic Partnership Agreements (CEPAs) and other trade agreements signed by India; and
- (d) the assessment made by the Government regarding the impact of such imports and trade agreements on domestic horticultural producers, along with the measures taken by the Government to safeguard their interests?

ANSWER

वाणिज्य और उद्योग मंत्रालय में राज्य मंत्री (श्री जितिन प्रसाद)

THE MINISTER OF STATE IN THE MINISTRY OF COMMERCE AND INDUSTRY
(SHRI JITIN PRASADA)

(a) India's trade in fruits and vegetables has remained robust over the years, reflecting strong domestic production capabilities and growing integration with global agricultural markets. India has consistently been a net exporter of fruits and vegetables. During the past ten years, exports increased from US\$ 2.45 billion in 2016-17 to a record US\$ 3.93 billion in 2025-26. Export volumes also increased from about 4.95 million tonnes in 2016-17 to 5.82 million tonnes in 2025-26, indicating sustained global demand for Indian horticultural products. Imports of fruits and vegetables also increased during the period, from US\$ 1.78 billion in 2016-17 to US\$ 3.82 billion in 2025-26, reflecting rising domestic consumption. Import volumes also increased from about 1.12 million tonnes in 2016-17 to 2.07 million tonnes in 2025-26. Despite the growth in imports, India continued to remain a net exporter of fruits and vegetables. The trade surplus peaked at US\$ 741 million in 2023-24 and remained positive at US\$ 108 million in 2025-26, demonstrating the continued competitiveness of India's horticulture sector in international markets. The overall trend indicates expanding trade flows on both export and import fronts, while maintaining a positive trade balance and strengthening India's position in global agricultural trade.

Detailed Imports of Fruits and Vegetables both value and volume, with country wise imports is placed at Annexure-1.

(b) Details of imports of tree nuts 0802 during the last 10 years both value and volume, with country wise imports is placed at Annexure-2.

(c)&(d) India's Free Trade Agreements (FTAs), Comprehensive Economic Partnership Agreements (CEPAs) and other trade agreements are negotiated with due regard to the interests of sensitive sectors, including agriculture sector. To safeguard domestic agriculture and allied sectors, the Government adopts a calibrated approach in FTA negotiations by maintaining sensitive, negative or exclusion lists on which limited or no tariff concessions are granted.

In addition, the Agreements provide for appropriate Rules of Origin to prevent misuse of preferential tariff treatment and enable recourse to trade remedial measures, including anti-dumping, countervailing and safeguard measures, in accordance with the provisions of the Agreements, in the event of import surges causing injury to the domestic industry. Institutional mechanisms such as Joint Committees and Sub-Committees established under FTAs are also utilised to review implementation issues and address concerns of domestic stakeholders. Further, FTAs are regularly monitored and reviewed to ensure that India's trade and economic interests, including those of agriculture and horticulture sector, continue to be adequately safeguarded.

The recently concluded trade agreements have also adopted a calibrated tariff liberalisation approach while preserving adequate policy space for sensitive domestic sectors. For instance, the FTAs with the UAE, Australia, the United Kingdom, Oman, New Zealand and EFTA provide enhanced market access for Indian exports while safeguarding sensitive domestic sectors through calibrated tariff liberalisation and transition arrangements.

Annexure – 1(A)

India's country wise imports of Fruits & Vegetables in the last 10 years (US\$ million)
