Besides, on Indian Railways, extension of train services, is an on-going process, which depends on various factors including:

- Capacity of that section**
- Availability of path**

- **Availability of required rolling stock**
- **Availability of matching infrastructure for rolling stock**
- **Maintenance requirement of railway tracks and other assets.**
- **Occupancy and the traffic requirement of the section.**

Proposals/requests/suggestions/representations, both formal and informal inter alia for stoppage of train services are received from Members of Parliament, elected representatives, organizations/rail users etc. at various levels including Railway Board, Zonal Railways, Divisional Office etc. As receipt of such proposals/requests/suggestions is a continuous and dynamic process, centralized compendium of such requests is not maintained. However, these are examined and action as found feasible and justified is taken from time to time, which is an on-going process.
